Personal Details

I'm a student currently studying at Belgium Campus

I have learnt a wide variety of programming languages and frameworks

I believe my problem solving skills is a highly valuable skill that will help me solve any problem that might come my way

I am always open to learning new languages and gaining new knowledge

I also have proficient skills in web programming which includes

HTML, CSS, and JavaScript, along with a few frameworks & modules

I would like to further my progress and one day become a full stack developer
